Journal of Food Engineering **12** (1990) 327–328

CONTENTS OF VOLUME 12

Number 1

A Simplified Model for the Prediction of Drying Rates for Foods 1
ALBERTO M. SERENO & GONÇALO, L. MEDEIROS (Portugal)

Modelling of the Enzymatic Conversion of Cracked Corn by Twin-Screw Extrusion Cooking 13
D. J. VAN ZUILICHEM, G. J. VAN ROEKEL, W. STOLP & K. VAN'T RIET (The Netherlands)

Fluidized Bed Drying of Bread and Biscuit Crumbs 29
T. JOHN, S. LAILACH, M. NEBELUNG & H.-D. TSCHEUSCHNER (GDR)

Mass Transport of Water in Foods — A Consideration of the Engineering Aspects 45
BENGT HALLSTRÖM (Sweden)

The Use of a Diffusional Model in Determining the Permeability of Corn Pericarp 53
MARCELA P. TOLABA, CONSTANTINO SUAREZ & PASCUAL E. VIOLLAZ (Argentina)

Residence Time Distributions in Extrusion-Cooking. Part 6: Viscous Dissipation in a Drossel Element in the Feed Zone of a Counter-Rotating, Twin-Screw Extruder 67
T. JAGER, D. J. VAN ZUILICHEM, W. STOLP & K. VAN'T RIET (The Netherlands)

Number 2

Impact Dehulling of Sunflower Seeds: Effect of Operating Conditions and Seed Characteristics 83
R. SUBRAMANIAN, M. C. SHAMANTHAKA SASTRY & K. VENKATESHMURTHY (India)

Heat and Mass Transfer in Chilling and Storage of Meat 95
J. D. DAUDIN (France) & M. V. L. SWAIN (UK)

Computer Simulation to Evaluate Thermal Processing of Food in Cylindrical Plastic Cans 117
SEONGGYUN SHIN & SANTI R. BHOWMIK (USA)

Shrinkage and Density of Squid Flesh during Air Drying 133
MD. SHAFIUR RAHMAN & PRAKASH LAL POTLURI (Australia)

Prediction of Temperature Profiles in Twin-Screw Extruders 145
IBRAHIM O. MOHAMED (Sudan) & ROBERT Y. OFOLI (USA)

Journal of Food Engineering (**12**) (1990) — © 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Number 3

Effective Heat Capacity for Strawberry Freezing and Thawing Calculations . . 165
ADRIANA E. DELGADO, AMELIA C. RUBIOLO &
LUIS M. GRIBAUDO (Argentina)

On the Theoretical Basis of the Asymptotic Semilogarithmic Heat Penetration
Curves used in Food Processing 177
A. K. DATTA (USA)

A Fast Approximate Analytical Solution to Luikov's Equations with Variable
Thermophysical Properties 191
NILUFER DURAL & ANTHONY L. HINES (USA)

Entrapment of Liquid Lipids in Matrixes of Saccharides 207
JUN IMAGI, NAOHISA KAKO, KAZUHIRO NAKANISHI &
RYUICHI MATSUNO (Japan)

Novel Chemical and Biological Sensors for Monitoring and Control of Food
Processing Operations 223
A. K. DATTA (USA)

Short Communication
On Evaluation of the Polar Contribution to Contact Material Surface Energy . 239
JOSEPH McGUIRE (USA)

Number 4

Modelling Heat Transfer in Fluidized Beds of Large Particles and its
Applications in the Freezing of Large Food Items 249
SHIOWSHUH SHEEN & LESTER F. WHITNEY (USA)

Computer Package for Transient Analysis of Industrial Multiple-Effect
Evaporators. 267
STELLA M. TONELLI, JOSÉ A. ROMAGNOLI & JOSÉ A. PORRAS
(Argentina)

Moisture Sorption Isotherms of Nigerian Millet at Varying Temperatures . . 283
E. S. AJISEGIRI & P. A. SOPADE (Nigeria)

Studies of Whole Cottonseed Processing with a Twin-Screw Extruder . . . 291
F. HSIEH, H. E. HUFF, I. C. PENG, J. C. WHITTIER, E. G. SCHMITZ &
J. A. PATERSON, JR (USA)

Research Note
Water Activity and Pseudo-activity Coefficient of Sorbed Water 305
A. BRAIBANTI, E. FISICARO & F. PALMIA (Italy)
